

ORAL CLEAR™

Directions:

- Remove gum capsule from tube, remove wrapping. Save wrapping for disposal of gum later.
- With lips sealed, bite into gum capsule then allow liquid to spread through mouth while chewing without swallowing.
- Once you have chewed on the gum for minimum of 30 seconds, your saliva will then be in "clear zone" from all toxins for the next 30 minutes. You may spit out or swallow the liquid left in your mouth and discard of the gum or keep chewing it.
- Do not eat or drink after use.

**INSTANTLY NEUTRALIZES NICOTINE, PRESCRIPTION DRUGS
AND ALL OTHER UNWANTED TOXINS FROM YOUR SALIVA**

Important Information:

- Although the gum is effective for up to 30 minutes best results are obtained within 10 minutes after biting into gum.
- Oral Clear works best on recently brushed/flossed teeth, but also performs well as a cleanse between brushings.
- Gum piece contains an inner liquid filled capsule which is sensitive to heat.
- Keep away from extreme heat and store at room temperature.
- Do not bend, twist, squeeze, or otherwise disfigure gum before use.
- No abstinence period is required prior to using this product.
- Maintaining a good dental hygiene will amplify the products effectiveness.
- Avoid using this product more than twice monthly.
